RESEARCH INTERESTS AND CONTRIBUTIONS

Keywords: Distributed Machine Learning, Explainability, Knowledge Graph

Research Summary: I am a PhD student in the **BRAINS Lab** at Rensselaer Polytechnic Institute, where my research focuses on advancing **distributed learning** and **explainability**. I develop methods for privacy-preserving and robust training across vertically and horizontally partitioned data, alongside model-agnostic frameworks that generate sparse, actionable counterfactual explanations. Currently, I am extending this work to **complex question answering** over **distributed knowledge graphs**. We aim to support **multi-hop reasoning** and query answering in federated settings without exposing raw entities, relations, or embeddings. More broadly, my research analyzes and reconciles the trade-offs between privacy, robustness, interpretability, and utility in realistic deployment scenarios, supported by rigorous mathematical guarantees.

Impact & Recognition: I have published **seven** first-authored papers (26+ total, including co-authored works) in venues such as CIFE_r, DAPPS, JKSUCIS, CSBJ, AIMS PH, and ETT. My work has been recognized with one **Best Paper Award** at TCCE. These contributions have garnered significant recognition, with over **1850** citations and an H-index of **15**.

ACADEMIC CREDENTIALS

Rensselaer Polytechnic Institute

Ph.D. in Computer Science

Advised by Dr. Oshani Seneviratne.

Troy, New York, USA

August 2023 - May 2028

Rensselaer Polytechnic Institute

M.Sc. in Computer Science

CGPA: 4.00 on the scale of 4.00

Troy, New York, USA

August 2023 - December 2025

Mawlana Bhashani Science and Technology University

B.Sc in Computer Science and Engineering

CGPA: 3.80 on the scale of 4.00

Position: 3rd

Tangail, Bangladesh

February 2015 - December 2019

PROFESSIONAL EXPERIENCE

Research Assistant

Aug 2023-Dec 2024

Rensselaer Polytechnic Institute

Funded by **CRAFT** to investigate efficient, private, and explainable federated learning for financial crime detection.

Lecturer, Computer Science

Jan 2022-Jul 2023

Dhaka International University

Undergraduate Researcher

Jan. 2019 - Dec. 2021

Mawlana Bhashani Science and Technology University

Joined Professor Mostofa's group as an undergraduate student and worked on various projects, such as detecting tumors and breast cancer using DNN models that improved upon past work.

SKILLS

- **Programming Languages:**
 - Comfortable with: Python, Java, JavaScript
 - Have used: C, C++, Haskell
- **Machine Learning Libraries:**
 - Comfortable with: PyTorch, scikit-learn, OpenCV, TorchVision, pandas, NumPy
 - Have used: TensorFlow, Keras
- **Web Frameworks:**
 - Comfortable with: Django, .NET, Flask
 - Have used: React.js, Next.js
- **Environments:**
 - Comfortable with: macOS, Linux
 - Have used: Windows

PROFESSIONAL SERVICE

- Reviewer for major AI conferences, including the **AAAI** Conference and **AISTATS**.
- Journal reviewer for **IEEE Access** and **Informatics in Medicine Unlocked**.

AWARDS AND ACHIEVEMENTS

- Secured **3rd position** to obtain B.Sc. degree.
- Awarded the **Craft Research Fund Grant** (2023-2024) for conducting research. ([Link](#))
- Won the **best paper award** at *2nd International Conference on Trends in Computational and Cognitive Engineering (TCCE) 2020*. ([Link](#))
- Won the **silver award** at *1st International Poster Competition on Achieving Sustainable Development Goals (SDGs) in Developing Countries*. ([Link](#))
- Took a Workshop on "Leveraging Machine Learning Approach to Software-Defined Network (SDN)" at *IEEE celebration day*. ([Link](#))
